TSD/CAB MEMO #629
9 December 1963

MEMORANDUM FOR: C/OL/SD/OAMB

SUBJECT : Recommendations for Disposition of Unserviceable [REDACTED] 25X1A

REFERENCE : Memorandum to Chief, Supply Division from [REDACTED] Subject as Above, Memorandum Nr. 610-63, 28 October 1963 25X1A

1. This office regrets the delay in reply to your request for a final review of subject problem. After reviewing the results of additional tests with revised surveillance function test performance requirements we concur with the actions outlined in Paragraphs 2 and 3 of reference report.

2. TSD recommends the disposal of all units classified as unserviceable as a result of these tests. We request that these units be clearly marked with red paint and forwarded to Station 955 for disposal. It is our intention to use the workable devices from these units for training purposes only without [REDACTED] 25X1A

Training units will be treated in the same manner as they become no longer usable. We therefore request that they be handled as a work item and issued to training at no cost. 25X1A

25X1A 3. We are pressing for the development of a [REDACTED] to replace subject item. Since production of this new unit is probably still at least one year

in the future, we request that issue of the remaining ^{25X1A} 
 be restricted to Agency operational demands
only. With the limited quantity on hand and no replacements
immediately in sight we cannot now afford to support non-CIA
requirements.
